SUMMARY

Results-driven Frontend Developer with 5 years of experience in building responsive UIs using React.js and Material-UI. Skilled in developing scalable, user-centric web applications with a focus on performance and design consistency. Proficient in collaborating with cross-functional teams and resolving real-time UI challenges. Passionate about continuous learning and leveraging technology to drive business success.

PROFESSIONAL EXPERIENCE

SherTech Info

Software Engineer

Noida (WFH), India

May 2024 - Present

- Contributed to a **US-based mental healthcare platform**, developing scalable and user-centric interfaces using **React.js** and **Material-UI**.
- Designed and implemented **data-driven UI components**, improving usability and dynamic content rendering.
- Integrated **RESTful APIs** to enable seamless communication between frontend and backend systems.
- Developed an **Idle Timer feature** to enhance application security and session management.
- Collaborated with cross-functional teams to deliver features aligned with business and user requirements.
- Leveraged modern development practices and explored **Agentic AI capabilities** to improve workflow automation and intelligent system interactions.

Leadrat

Software Engineer

Bengaluru, Karnataka, India

April 2023 - March 2024

- Worked on a **real estate platform**, building responsive and scalable UI solutions using **Angular, JavaScript, Bootstrap, HTML, and CSS**.
- Ensured **cross-browser compatibility and performance optimization** across multiple devices.
- Collaborated with UX/UI designers to translate design concepts into functional and visually appealing features.
- Conducted code reviews and participated in team discussions to maintain code quality and best practices.
- Integrated **REST APIs** for dynamic data handling and seamless user experience.
- Utilized Bootstrap to streamline the development process and ensure consistent styling across the application.

XO Enterprises

Software Engineer

Lucknow

June 2021 – April 2023

- Worked in the **CCTV and security solutions domain**, contributing to the development of company websites and web applications.
- Designed and developed **responsive web interfaces** using HTML, CSS, JavaScript, and React.
- Built **dynamic UI components**, improving application performance and responsiveness.
- Integrated frontend with backend services to ensure smooth data flow and functionality.
- Maintained and updated web platforms, ensuring reliability and performance of security-based applications.

PROJECTS & OUTSIDE EXPERIENCE

Youtube-clone

Frontend

January 2024 - January 2024

- Developed a feature-rich video streaming interface a YouTube Clone using **React, Tailwind CSS, and Redux**, with **efficient pagination and dynamic data loading**.

- Implemented **live chat functionality and nested comment systems**,, enhancing user engagement and interaction on the platform.
- [Link to project](#)

Netflix-Gpt

January 2024 - January 2024

Frontend

- Built an interactive movie browsing platform a Netflix Clone using **React.js**, **Redux**, and **Tailwind CSS**, integrated with **third-party APIs for real-time data fetching**..
- Implemented a **multi-language (bilingual) support** feature for user accessibility, showcasing proficiency in front-end development and data integration techniques.
- [Link to project](#)

INTERNSHIP

FunctionUp

Remote

Full Stack Developer Trainee

June 2022 – March 2023

- Built full-stack applications using **React** and **Node.js**.
- Used MongoDB and AWS S3 for data and storage.
- Developed projects like **E-Commerce Dashboard** and **Book Management System**.

EDUCATION

Kalinga University

July 2016 - June 2019

Bachelor's, Mathematics

SKILLS

- **Languages:** TypeScript, JavaScript, HTML, CSS
- **Frameworks/Libraries:** React.js, AngularJS, Node.js, Express.js, Redux, Bootstrap, Tailwind CSS, Material UI
- **Databases:** MySQL, MongoDB, Mongoose
- **Other Technologies:** REST APIs, AWS
